## The UIM launches the 2023 Environmental Award

Dear Ladies, dear Sirs,

The Union Internationale Motonautique (UIM) is the world governing body for Powerboat Racing, incl. Aquabike, MotoSurf and Electric Powerboating, fully recognized by the International Olympic Committee (IOC). The UIM governs all Powerboating disciplines and acknowledges that every activity conducted on water can make a difference in the fight against climate change. The UIM is committed to promoting environmentally friendly practices which, we hope, will help to contribute towards solving the environmental challenges of today, particularly those involving the decline in biodiversity and the unsustainable use of energy resources.

To foster and acknowledge exemplary achievements in the innovation, advancement, and utilization of environmentally sustainable technologies, the UIM is pleased to introduce the "2023 UIM Environmental Award."

UIM Member Federations, Powerboat Racing Teams, boat builders, engine manufacturers, Universities, research centres, scientists, Non-Governmental Organizations (NGO's), event organizers, companies and individuals are all eligible for the "2023 UIM Environmental Award". This award recognizes outstanding results and achievements, obtained by visionary leaders through individual and collective efforts and innovative initiatives seeking the benefit of the Environment.

The entry form and terms and conditions for participation in the "2023 UIM Environmental Award" are attached to this communication and can be found on the UIM website [www.uim.sport](http://www.uim.sport)

Raffaele Chiulli  
UIM President
