OVERALL WINNING PICTURE

World Aquabike Class Pro – Runabout GP1 – Grand Prix of Olbia, Italy 17-19 September 2021

As the UIM celebrates its Centenary I hope you are all getting back to some sort of normal (whatever the new normal turns out to be).

As expected, submissions for the 2021 UIM Photographic contest were significantly reduced as a result of pandemic constraints for competitors, spectators and photographers alike. Despite this, I would like to extend my thanks to those who not only managed to get out and enjoy taking photographs of our exciting and dynamic sports, but who went to the effort of selecting and submitting their entries.

I am confident that 2022 will enable more of us to enjoy UIM sports at all levels and look forward to seeing submissions for next year's photo contest return to more normal numbers.

We are currently reviewing initiatives to encourage more of you to submit your images so keep an eye on your usual UIM communication channels for more details.

It only leaves me to congratulate the UIM on their Centenary and for their continued, unwavering role at the head of World class motorised water-sports competition, their dedication to the continued development of our sport and for hosting their prestigious photo contest.

I wish you all a happy, safe and competitive 2022.

James Wright

Judging Panel Chairman

About the Union Internationale Motonautique. The UIM is the world governing body for all Powerboating activities. It is fully recognized by the International Olympic Committee (IOC), is a member of the Global Association of International Sports Federations (GAISF) and of the Association of the IOC Recognized International Sports Federations (ARISF), for which UIM President, Dr. Raffaele Chiulli also serves as President (ARISF). The UIM has 64 affiliated National Federations. Circuit, Offshore, Pleasure Navigation, Aquabike and MotoSurf are the main disciplines. The UIM has signed a Cooperation Agreement with the United Nations Environment Program (UNEP) to further its range of environmental initiatives, share expertise and work together for "greening" the Sport.
